D. The Campuses and the Extended Learning Institute

- Alexandria Campus

  The Alexandria Campus is located in Alexandria and primarily serves the residents of the City of Alexandria, Arlington County, Falls Church and eastern Fairfax County. The Campus grew from one building constructed on a 22.5 acre site in 1969 to three buildings on 51.4 acres in 1980. Additions to the original Bisdorf Building and the Engineering/Automotive Technology Building were opened in 1980. In that year, the John Tyler School was also purchased from the City of Alexandria and incorporated as part of the campus. The Alexandria Campus also maintains classrooms in leased temporary facilities at off-campus locations.

- Annandale Campus

  The Annandale Campus is located in central Fairfax County and primarily serves the residents of the County. This campus began as one building constructed in 1967 on a 78 acre site. In 1969, three buildings were erected and the TV/Technical Building followed in 1970. The Nursing Building was completed in 1972. The Brault Building, which houses college staff, was completed in 1984. The Richard J. Ernst Community Cultural Center, which serves the College and the community, was completed in 1990. The McDiarmid Building was completed in 1997. The Annandale Campus also provides off-campus instruction at various locations.

- Loudoun Campus

  The Loudoun Campus is located in Sterling and primarily serves the residents of northern Fairfax County and Loudoun County. Construction was begun on a 91.4 acre site in 1972 and completed in 1974 with four permanent buildings and the temporary Interior Design Building and greenhouse/laboratories. The Loudoun Campus also maintains classrooms in leased temporary off-campus facilities.

- Manassas Campus

  The Manassas Campus is located in western Prince William County on a 100 acre site next to the Manassas National Battlefield. The campus primarily serves the residents of western Prince William and Fairfax counties and the cities of Manassas and Manassas Park. Specialized credit programs offered only at Manassas Campus include Aviation certificates and degrees at the Manassas Airport location; a Carpentry-Framer Certificate in conjunction with the Industry-Education Alliance and Northern Virginia Builders' Association; a Stone Carving certificate; and Welding certificates. In 1999, the Mary Louise Jackson Amphitheater was opened.

- Woodbridge Campus

  The Woodbridge Campus is located in eastern Prince William County and primarily serves the residents of the County. Classes were offered in temporary, community facilities from 1972 through 1975. Campus construction began in 1974 on a 109 acre site. A four-story building was completed by 1975; Phase II of this building was completed in 1990. The campus has also added the Heating, Ventilation and Air Conditioning buildings, and several temporary facilities. The Woodbridge Campus provides off-campus instruction at several locations including area high schools and the Quantico and Fort Belvoir military bases.

- Extended Learning Institute

  The Extended Learning Institute (ELI) developed its first distance education courses in January 1975, and now offers over 100 courses taught by approximately sixty full-time NVCC faculty. ELI credits transfer to other colleges the same as credits of any other NVCC course. Course offerings are designed to provide learning opportunities to those who may not be able to take advantage of the more traditional classroom-based courses. ELI students use television, video, computer conferencing, voice mail, and printed materials that are chiefly self-instructional. ELI instructors are usually available by phone several days each week and keep regular office hours. ELI students may take all, or some, of their courses toward an associate degree in Business Administration, General Studies or Engineering.

1993-94 THROUGH 1997-98

IV. Results of NVCC Graduate Survey

The College surveys its graduates annually. The survey seeks information on the graduates' current education and employment. It also gives the graduates an opportunity to rate their educational experiences at NVCC in terms of instruction, faculty, services, and facilities.

See Table 2.7 for the number of survey responses (1993-1997), the graduates' education and employment status, and their median salary information. A full report on graduate survey results is published biennially by OIR.

This fact is important for trend analysis.

CHAPTER 5: STUDENT SERVICES AND COMMUNITY EDUCATION

I. Information Technology Services

In 1997, the VCCS created a new agency to run its network among colleges and to operate the mainframe computers. This agency, the VCC Technology Utility, absorbed the regional computing centers—including NVCC's Computing and Information Services. To replace local support, NVCC created a new unit, Technical Support Services.

Northern Virginia Community College has been in the process of implementing a comprehensive College-wide Technology Plan that will remake its technology environment. Almost $6.9 million has been spent on this plan.

The basic goals of the Technology Plan were established by the VCCS and were the same for all 23 community colleges. These included putting a fully-featured and networked computer on every full-time faculty and staff desk; providing a number of up-to-date computers for student access equal to one for every 7% of our FTES enrollment; providing all faculty, staff and students with access to a modern set of office software, e-mail, and Internet access; providing Local Area Network access throughout the College; providing compressed video facilities on every campus; migrating to the new Network Virginia high speed network; and providing training in the new technologies. By the end of the Spring semester 1998, NVCC will have met or exceeded these goals.

The following are major accomplishments of the past three years: Purchased over 1,600 new Pentium computers; upgraded approximately 500 existing computers; installed and/or relocated a total of almost 4,500 computers College-wide; converted all College computers to Windows 95; converted the College network to Windows NT; implemented Microsoft Office software suite College-wide; installed Local Area Network connections in every classroom, at every computer lab workstation, at workstations in the campus LRCs and at every full-time faculty and staff desk; established a modern Help Desk with state-of-the-art help-desk software to support users throughout the College; installed two-way compressed video equipment on all five campuses, allowing them to share live courses with each other and with other colleges; installed new instructional software that allows faculty and staff to put course materials or entire courses on the Internet without having to know programming.

College-wide student and administrative information systems continue to run on an IBM ES 922 to process student admission, registration, class scheduling and other functions.

Students currently may register for courses or obtain general college information using NOVANET - a telephone registration system.

The class schedules and college catalog are now available on the NVCC webpage at http://www.nv.cc.va.us.
